NMSPE Albuquerque Chapter Project of the Year

Criteria

The engineering project may have occurred anywhere in New Mexico between January 1 and December 31, 2016. The project must demonstrate the application of good engineering practice with innovative design and/or unique features, must support the betterment of the community in which it is located, must be publicly recognizable as an example for the profession, and must be of sufficient distinction as to set it apart from like projects elsewhere.

Guidelines

1. Submittal Letter: Describe to the Selection Committee why this project is worthy of special recognition. Explain all factors that comprise the project's uniqueness such as innovative engineering, challenges faced, and overall social impact. The letter shall address, at a minimum, the following:
 - A. Disclose the role of the Professional Engineer(s) and Engineer(s) in Training, if applicable, who were part of the team by including:
 - a. role of entrant's firm in the project,
 - b. role of the other consultants participating in the project,
 - c. brief description of the entrant's contribution to the project, and
 - d. public or private agency that was involved in the project.
 - B. Describe the committee why the project should be selected by addressing:
 - a. original or innovative application of new or existing techniques,
 - b. the engineering problems/challenges of the project and how these were solved by the design team,
 - c. future value to the engineering profession,
 - d. social, economic, and sustainable design considerations,
 - e. complexity,
 - f. exceeding client/own needs,
 - g. total project cost

Nominations
